

## **Seminar**

Before a student may even be put into a seminar class they have to sign a contract the spring before school lets out. In the contract they and their parents agree that the student will complete at least 4 art projects over the summer. We go over a plan of work and they then are to have a minimum of two art classes their senior year.

Students are to have 9 very good pieces done by the middle of December for Scholastics. They are working towards a scholarship and must have a completed portfolio. They also are to have several other works ready to be put in other shows that follow during the rest of the year.
