

**COMMUNICATION IS A TOP PRIORITY FOR MOUNT CLEMENS
COMMUNITY SCHOOLS!**

WE WANT YOU TO BE INFORMED...

Parents and Guardians, School Messenger is a new program Mount Clemens Community Schools is utilizing to communicate with parents and families in regards to reminders about important events, notifications on cancellations and time/date changes. In addition, this is the primary system that will be utilized to communicate school cancellations due to weather or other building issues. The system can also support communication in the event of a school emergency.

Messages can be sent via phone call, email and/or text through the system. Contact information is pulled from PowerSchool our student information database and is updated every 24 hours automatically. Communications can come from both the building and district levels as necessary.

Parents and Guardians please be sure that your child's school has a current phone number (home and cell) and email address(s) on file in PowerSchool. In the event that this information changes please notify the school immediately.

To "**opt in**" to receiving **TEXT MESSAGES** via SchoolMessenger please:

Text "yes" to 67587

****This system has replaced any previous text alert notification system utilized by Mount Clemens Community Schools for inclement weather school closures.***
